Özge Sürer

Northwestern University
Department of Industrial Engineering and Management Sciences
2145 Sheridan Rd, Evanston, IL 60208

(312) 909-6737
ozgesurer2019@u.northwestern.edu
https://ozgesurer.github.io

Research Interests

Methodology: Statistical and Machine Learning, Predictive Models, Data Analysis/Mining
Applications: Recommender Systems, Public Health, Physical-Statistical Modeling

Education

Northwestern University — Evanston, IL
Ph.D. in Industrial Engineering and Management Sciences — *December 2020*
Advisors: Professors Daniel W. Apley, Edward C. Malthouse
Thesis: Predictive Models for Group-Structured Regression and Classification Problems
Major in *Applied Statistics & Statistical Learning*; Minors in *Analytics* and *Optimization*

Boğaziçi University — İstanbul, Turkey
M.S. in Industrial Engineering — *January 2014*
Advisor: Professor İ. Kuban Altinel
Thesis: Event and Clock-Based Representations of Time in Mathematical Optimization

İstanbul Technical University — İstanbul, Turkey
B.S. in Industrial Engineering — *June 2011*

Academic & Professional Experience

Northwestern Argonne Institute of Science and Engineering — Evanston, IL
Postdoctoral Research Fellow — *January 2021 – Present*
Supervisors: Matthew Plumlee, Stefan Wild
Topics: Bayesian statistical methodology and its applications in machine learning including Gaussian processes, tree models, and dimension reduction, computational statistical inference including multi-model emulators, uncertainty quantification for parameters, model calibrators, and model mixing

United Airlines — Chicago, IL
Statistics and Operations Research Intern — *June 2019 – September 2019*
Topics: Spill & recapture model for predicting the future demand, benchmark studies through data analysis techniques and visualization, decomposition methods to more accurately and efficiently model spill and recapture

Northwestern University — Evanston, IL
Research Fellow, Spiegel Digital & Database Research Center — *September 2016 – September 2020*
Topics: Recommender systems in multisided platforms, data analytics

Teaching Experience

Northwestern University — Evanston, IL
Instructor, Industrial Engineering and Management Sciences Department — *Spring 2019*

- IEMS 303 Statistics (Undergraduate level)
  Class size: 29, Instructor overall effectiveness: 5.35/6.00
  Topics: Foundations of statistics and statistical computing for data analysis, descriptive statistics and statistical inference
  Teaching project: Implemented a project titled "Confidence in Learning Statistics with R Programming Language" as a participant of the Searle Center Teaching-As-Research program

Teaching Assistant, Industrial Engineering and Management Sciences Department

- IEMS 202 Probability (Undergraduate level) — Winter 2017, Spring 2018
- IEMS 303 Statistics (Undergraduate level) — Fall 2016/2018, Winter 2019, Spring 2020

Teaching Assistant, Master of Science in Analytics

- MSIA 421 Data Mining — Winter 2018

Bootcamp Instructor, Industrial Engineering and Management Sciences Department

- Statistics (Ph.D. level) — Fall 2016

Mentoring experience

Undergraduate students

Northwestern University, Industrial Engineering and Management Sciences Department

- Achyut Kasi, Cindy Sanchez (co-supervised with Professor D. Morton) June 2020–September 2020
  Development of a module to produce graphs and reports automatically for the COVID-19 staged alert system
- Aneesh Kudaravalli, Katherine Johns, Margot Dupeyroux,
  Robert Wong, Yun Hwan Choi (co-supervised with Professor D. Morton) September 2020–December 2020
  Investigation of different trigger metrics for COVID-19 staged alert systems
- Huangda Shang (co-supervised with Professor D. Morton) September 2020–March 2021
  Alternative solutions of COVID-19 staged alert systems via derivative-free optimization methods
- Justin Chen June 2020–September 2021
  Integration of visualization and diagnostics modules to the Python package `surmise`

Awards & Honors

- Walter P. Murphy Fellowship for outstanding first year Ph.D. students at Northwestern, Evanston, IL, 2015–2016
- Scientific and Technological Research Council of Turkey (TUBİTAK) Scholarship, Turkey, 2011–2015
- Council of Higher Education (YÖK) Undergraduate Scholarship, Turkey, 2006–2011

Service & Professional Activities

- Session chair, Data-driven Modeling in Uncertainty Quantification, INFORMS, Anaheim, CA, October 24–27, 2021
- Session chair, Interpretable Predictive Models, INFORMS, Seattle, WA, October 20–23, 2019
- Session chair, Intriguing Tweaks in Data Science I, INFORMS, Phoenix, AZ, November 4–7, 2018
- Participant, INFORMS Doctoral Student Colloquium, Houston, TX, October 22–25, 2017
- Participant, ACM Summer School on Recommender Systems, Como, Italy, August 21–25, 2017
- Conference organizing committee member, Global Conference on Engineering and Technology Management, İstanbul, Turkey, June 23–26, 2014
- Session chair, Health Economics, Global Conference on Healthcare Systems Engineering, İstanbul, Turkey, August, 5–8, 2014
- Session chair, Artificial Intelligence–Fuzzy Systems, EURO 2013, Rome, Italy, July 1–4, 2013

Software Development

- surmise

  Open source Python package designed to provide a surrogate model interface for calibration, uncertainty quantification, and sensitivity analysis.

- CTR

  Open source R package for the application of coefficient tree regression (CTR).

- COVID-19 Staged Alert System

  Open source Python code for finding the best COVID-19 staged strategy (Co-authored by Haoxiang Yang).
